Master of Arts in Security Policy Studies

*Note: This curriculum applies to students who enrolled prior to Fall 2018.*

A Career-Oriented Curriculum

The 40-credit-hour M.A. program in Security Policy Studies includes a Core Field and two Specialized Fields.

- **The core field** (9 credits) focuses on vital international security issues.
- **Specialized field I** (minimum 9 credits, including a required course) allows students to focus on contemporary security issues, defense, or to pursue a regional focus. Available fields include (in alphabetical order):
  - Conflict and Conflict Resolution
  - Cyber Security Policy
  - Defense Analysis
  - Energy Security
  - Homeland Security Policy
  - Intelligence
  - Regional Security
  - Science, Technology, and National Security Policy
  - Security and Development
  - Strategic Concepts and Military History
  - Transnational Security Issues
  - U.S. National Security and Defense Policy
  - Weapons of Mass Destruction

- **Specialized field II**, (minimum 9 credits, including a required course) may be selected from the fields listed above, another relevant specialty offered by the Elliott School's other M.A. degree programs, or a tailor-made program designed in consultation with the Program Director or Associate Director.
- **Three credits of skills courses**, designed to provide practical skills and knowledge that will increase students' career prospects in the security field. One credit of language coursework may count towards this requirement with approval of the Program Director.
- **An economics requirement** to provide education in international economics.
- **A tool requirement** to enhance professional qualifications, either in statistics or in a foreign language.
- A four-credit **capstone course** (IAFF 6189), taken in the final two semesters, that tests a student's ability to address a policy problem using the skills and knowledge acquired in their course of study.
- For those students intending to pursue a further advanced degree, or a career field that calls for a more strictly academic final product, a six-credit **thesis** can be completed *in addition to* capstone, with permission from the Program Director.
Core Field (9 Credits)

It is strongly advised that students complete the core field in the first semester or first year of study.

- PSC 6349 International Security Politics
- IAFF 6160 Defense Policy and Program Analysis
- HIST 6032 History of Strategy and Policy

Economics (3 Credits)

Students are required to have undergraduate-level background coursework in microeconomics and macroeconomics before enrolling in a graduate course. If you have the minimum economics prerequisites but no more, we recommend taking ECON 6280. Students with advanced economics backgrounds should take ECON 6281 or higher.

- ECON 6280 Survey of International Economics
- ECON 6283 International Trade Theory and Policy
- ECON 6284 International Macroeconomic Theory and Policy

Tool Requirement (3 credits)

Those students not testing out in a language need to take:
- IAFF 6501 Quantitative Methods for International Affairs Professionals or

For students with advanced statistics backgrounds, this course is preferable:
- IAFF 6198 Advanced Quantitative Analysis

Students intending to take a specialized field in Defense Analysis should take EMSE 6850 Quantitative Models in Systems Engineering (and should register for this course by completing an RTF form and submitting it to the University Registrar).

Students who do test out in a language have three extra credits to apply to their specialized fields.

Skills Courses (3 Credits)

Skills courses should be chosen based on career objectives with the advice of the Program Director. Courses are numbered 6502 and 6503 interchangeably. The writing courses are recommended to all students, and particularly to those educated outside of the American system.

- IAFF 6502 Writing for International Policy Makers
- IAFF 6502 Writing for International Affairs Professionals
- IAFF 6502 Introduction to Editing
- IAFF 6502 Op-Ed Writing Skills

In general, we offer the following suggestions based on fields of interest:

**NGOs and Development**
- IAFF 6502 Project Monitoring and Program Evaluation
- IAFF 6502 Fundraising for Non-profits
- IAFF 6502 Negotiation

**Government (Intelligence and Defense)**
- IAFF 6502 Writing for Intelligence Professionals
- IAFF 6502 Project Management and Program Evaluation for Security

*Updated April 2016*
IAFF 6502 Political Analysis
IAFF 6502 Formal Briefing
IAFF 6502 Alternative Red Team Analysis
IAFF 6502 Negotiation
IAFF 6502 Intro to Gaming and Simulations

Private Sector and Contracting
IAFF 6502 Project Management and Program Evaluation for Security
IAFF 6502 Political Analysis
IAFF 6502 Formal Briefing

Capstone Course (4 credits)

In their final year students will complete a capstone course. During their penultimate semester two credit of work on capstone preparation will take place, guided by a faculty member. Projects and working teams will be created and research organized. In the final semester, two credits of work are guided by a faculty member as working teams produce a research product and also present it to an expert audience.

Specialized Fields I and II (Minimum 9 credits for each)

In addition to the courses noted below, students may be able to transfer up to nine credits from the Washington Consortium, with approval of the Program Director. Students who participate in exchange programs with Elliott School International Partners are eligible to transfer in a total of ten credits from abroad.

Conflict and Conflict Resolution
Required course (to be taken first):
IAFF 6171 Introduction to Conflict Resolution

Choose at least two:
IAFF 6118 International Law and the Use of Force
IAFF 6118 Reinventing the United Nations
IAFF 6173 Security & Development
IAFF 6186 Early Warning and Conflict Prevention
IAFF 6186 Illicit Finance & Security
IAFF 6186 Insurgency & Counterinsurgency
IAFF 6186 International Peacekeeping
IAFF 6186 Responses to Terrorism
IAFF 6186 Stabilization and Peacebuilding
IAFF 6186 War and Conflict in Africa
IAFF 6378 Conflict Resolution and the Middle East
IAFF 6505 International Negotiations
MGT 6215 Conflict Management and Negotiations
PSC 6476 The Arab-Israeli Conflict

Other course opportunities exist throughout the University and University programs:
Relevant courses in the GW law school (maximum two courses; with law school permission), Oxford courses in GW’s Oxford Program on Human Rights (also maximum two courses) and a number of regional courses can fit this specialized field as well.

Cyber Security Policy
Required Course (to be taken first):
IAFF 6186 Cyber Threats and Policy

Choose at least two:
For students with a social science background:
IAFF 6158 Cyber and Information Policy
IAFF 6158 Cyber Security
IAFF 6169 Homeland Security Policy
IAFF 6186 Intelligence in a Democratic Society
IAFF 6198 Digital Trade and Global Internet Governance
CSCI 6534 Cybersecurity and Governance
CSCI 6532 Information Policy
EMSE 6537 Information Operations
EMSE 6545 Internet and On-Line Law for Security Managers
LAW 6879 Cybersecurity and Law and Policy (2 credits, take an extra skills course to balance out)

For students with a more technical background:
CSCI 6531 Computer Security
CSCI 6532 Information Policy
CSCI 6534 Cybersecurity and Governance
CSCI 6542 Computer Network Defense
CSCI 6547 Wireless and Mobile Security
CSCI 6548 E-commerce Security
IAFF 6198 Digital Trade and Global Internet Governance
EMSE 6543 Managing the Protection of Information and Systems Security
ISTM 6206 Information Systems Security

Defense Analysis
This field is designed to prepare students for employment in defense policy think tanks, consulting organizations, analysis offices in the government, and federally funded research and development centers.

Required course (to be taken first):
IAFF 6186 Methods of Defense Analysis

Required Tool Class: EMSE 6850 Quantitative Models in Systems Engineering [NB. EMSE 6850 is recommended as better training for the purposes of the Defense Analysis specialization, but students who have already taken the SPS tool requirement may use that to fulfill this requirement, with faculty permission. ONLY those who are in this specialized field can use EMSE 6850 as their statistics Tool Requirement course.]

Choose at least two:
IAFF 6186 Military Power and Effectiveness
IAFF 6186 Military Technology Assessment
IAFF 6186 National Security Budgeting
IAFF 6186 Maritime Security

Updated April 2016
Energy Security – NOTE: Many of these courses not available 2017-18

Required Course (to be taken first):
IAFF 6186 Energy Security

Choose at least two:
IAFF 6186 Environmental Security
IAFF 6186 Intelligence for Business
IAFF 6186 Political Risk Analysis
IAFF 6118 Nuclear Energy
IAFF 6153 Science, Technology and Policy Analysis
IAFF 6158 International Issues in Energy
IBUS 6400 Oil: Industry, Economy, Society
EMSE 6200 Policy Factors in Environmental and Energy Management

@ University of Sydney
- Terrorism and Counterterrorism Policy and Law
- Crises, Disasters and Public Management

**Intelligence**

Required course (to be taken first):
IAFF 6165 Fundamentals of Intelligence

Choose at least two:
IAFF 6163 Transnational Security
IAFF 6186 Intelligence in a Democratic Society
IAFF 6186 International Organized Crime
IAFF 6186 Military Power and Effectiveness
IAFF 6186 Responses to Terrorism
IAFF 6186 Countering Violent Extremism
IAFF 6186 Non-State Actors
IAFF 6186 Political Risk Analysis
IAFF 6118 Nuclear Proliferation and Nonproliferation

*Previous courses offered at Elliott School International Partners via Exchange Programs*

@ Carleton University, Ottawa
- Intelligence, Statecraft and International Affairs

*Updated April 2016*
Regional Security
Regional security consists of three courses. All courses must focus on the security issues within the region; general policy courses are not applicable. Courses may be taken through regular GW courses, courses at ESIA international partner schools, Elliott School Special Topics courses and/or courses from other Washington Consortium Universities. Our ESIA International Partner Schools are a great opportunity to study regional security issues in the field. A specialized field in regional security requires proficiency in an applicable foreign language.

Sample Specialized Field in “Middle East Security”
Required language proficiency:
Arabic or Hebrew
Russian

Required course (to be taken first):
IAFF 6378 Security in the Middle East
IAFF 6186 Russia and International Security

Choose at least two:
IAFF 6186 Non-State Actors (short-term study abroad course in Tel Aviv)
IAFF 6378 US Policy in the Gulf
IAFF 6378 US Security Policies in the Middle East
IAFF 6378 Militaries & Politics in the Middle East
IAFF 6378 Iraq & Iran
IAFF 6378 Lebanon & Syria
IAFF 6378 Arab Uprisings: A Critical Introduction
PSC 6476 The Arab-Israeli Conflict

Suggested skills course:
IAFF 6502 Cross-Cultural Communication

Previous courses offered at Elliott School International Partners via Exchange Programs
Africa
@ University of the Witwatersrand, Johannesburg
